

Armenian Lighthouse Charitable Foundation

□ Description

The mission of the Armenian Lighthouse Foundation is to support married and then abandoned women in Armenia who face great difficulties in raising their children.

The Armenian Lighthouse Foundation aims to make women and their families stable in order to strengthen Armenia.

The Armenian Lighthouse Foundation is already supporting many families by providing them with educational, material and psychological support. With your help, the Armenian Lighthouse Foundation also plans to provide them with professional skills and counseling on child care for mothers in psychological crisis, so that they do not abandon their children and leave them in orphanages.

With limited resources, the Armenian Lighthouse Foundation has already had a significant impact in Armenia. The Armenian Lighthouse Foundation has kept many children out of orphanages. The Armenian Lighthouse Foundation cannot achieve its goals without your support. We appeal to you to donate or with a request to sponsor a woman and her children on a monthly basis. Even 50 USD per month can save a child from being abandoned or help mothers acquire professional skills to take care of their own lives and children in the future.

We express our deepest gratitude in advance for your support.
