

# Yalkezian Foundation

---

## □ Description

The Yalkezian Foundation conducts humanitarian work in Armenia and surrounding areas, for the advancement of education, preservation of the environment, promotion of health, and relief of poverty. We believe all human beings should be given the opportunity to better their circumstances and live at standards much higher than the poverty line. Everything we do is guided by our belief in the power of lending a hand. And in partnership with people who give their sweat equity.
